Experiences with the Earth System Science Data

Tuesday, 13 December 2022 13:50 (15 minutes)

This talk summarizes 10 years of experience –successes and bottlenecks –with the linking of journal articles and datasets (with a brief excursus on the linking ecosystems of publishers). The publisher's early attempts at enabling "executable research compendia"offer a peek into what will be expected of the global e-infrastructure.

Presenter: PFEIFFENBERGER, Hans (Alfred Wegener Institut)

Session Classification: Interlinking - interaction between data, publications and PIDs
