Agenda today - WISE (times CEST)

14:30  Welcome and WISE Community Introduction
       Speaker: David Kelsey

14:45  SCI Trust Framework - maturity assessment - HowTo Guidance
       Speaker: Ian Neilson (STFC - UKRI)

15:00  Software Vulnerability Handling WG
       Defining best practice concerning the handling of software vulnerabilities
       Speaker: Linda Cornwall (UKRI/STFC/RAL)

15:15  SCI-WG - maintenance of AARC PDK
       Updating the AARC Policy Development Kit
       Speaker: David Kelsey

15:30  Coffee break

16:00  EOSC Security
       Speaker: David Groop (Nikhef)

16:15  EOSC Security Incident Response
       Speaker: Pinja Koskinen (CERN)

16:30  Incident Response and Threat Intelligence WG
       An update
       Speakers: David Crock (UKRI/STFC), Romain Wartel

16:45  WISE next steps
       Speaker: David Kelsey

Kelsey/WISE Community
Welcome to the WISE Community Meeting

David Kelsey (STFC-RAL, UK Research and Innovation)
SIG-ISM & WISE 21 April 2022

In collaboration with and co-supported by
EU H2020 GN4-3, EOSC Future & EGI-ACE

https://wise-community.org
Welcome to the WISE meeting

• Welcome to all - thank you for joining this (yet another) virtual meeting
  • Slides available via the agenda page https://events.geant.org/event/1188/

• Group “photo” (start of coffee break)?
WISE Mission

The WISE community enhances best practice in information security for IT infrastructures for research.

How do we operate to fulfil the WISE mission?

• WISE fosters a collaborative community of security experts and builds trust between IT infrastructures, i.e. all the various types of distributed computing, data, and network infrastructures in use today for the benefit of research, including cyberinfrastructures, e-infrastructures and research infrastructures.

• Through membership of working groups and attendance at workshops these experts participate in the joint development of policy frameworks, guidelines, and templates.
WISE Community - recent history

• Last met in person at the NSF Cybersecurity Summit 2019

• Community members come from e-Infrastructures across the world
  • Governed by a steering committee
  • thank you to Ana Afonso for support

• Two per year virtual meetings in 2020 and in 2021

• Meetings in 2022
  • 21 April (virtual)
  • Autumn/Fall 2022 (in person?)
Active Working Groups - 2 topics included in this meeting

- Security Communications Challenge Coordination Working Group (SCCC-WG) - joint with SIG-ISM
- Incident Response & Threat Intelligence Working Group (IRTI-WG)
- Risk Assessment WISE (RAW-WG) - joint with SIG-ISM
- Trust and policy issues related to the Security for Collaborating Infrastructures trust framework (SCI-WG)

Not yet started (was proposed at recent WISE meetings) - will hear more today

- Best Practices for handling Software Vulnerabilities
Agenda today - Part 1

https://events.geant.org/e/ismwise22

Kelsey/WISE Community
Agenda today - Part 2

15:30 Coffee break

16:00 EOSC Security
   Speaker: David Groep (Nikhef)

16:15 EOSC Security Incident Response
   Speaker: Pinja Koskinen (CERN)

16:30 Incident Response and Threat Intelligence WG
   An update
   Speakers: David Crooks (UKRI STFC), Romain Wartel

16:45 WISE next steps
   Speaker: David Kelsey
Backup slides
WISE and Trusted CI have agreed a joint statement of collaboration

“Trusted CI and WISE share a common goal to support the research mission through the development of appropriate cybersecurity practices. Through close collaboration, the groups will ensure that cybersecurity frameworks, templates, and policies for our international infrastructures for research will grow increasingly aligned and interoperable.”
