

EOSC Security Incident Response

WISE Workshop
21.4.2022

History of the incident response team

- From EOSC Future's start – after 1st monthly meeting
- First weekly 4.6.2021 – running actively ever since
- Internal channel created fast
- Email address abuse@eosc-security.eu set up quickly as well

Key areas for IR

Incident Response in EOSC

- Key features of the EOSC:
 - Distributed environment → distributed responsibilities
 - Different capabilities
- Every incident will likely be very visible and significant

Currently working on

Tools

- Ticketing system
- Communication
- Internal procedures

Integrations in EOSC

- Currently working on integrating to EOSC Helpdesk
- Other tools improving co-operation and data on wishlist
