

C5: SEE NRENs Community Hub

Tuesday, 12 December 2023 13:30 (1h 30m)

Since its establishment in 2018, the SEE Directors Forum has been working on supporting the NRENs in the SEE region. With strong support from GEANT, that started in GN4-3 and strongly continues in GN5-1, the NRENs work along each-other to address the challenges and overcome the barriers and narrow the digital divide. Through regular meetings, open discussions, shared best practices from the region, but also from other, more developed European NRENs, the Directors of the emerging NRENs gather experience and transpose those best practices to improve the operations of their respective NRENs. Although the Forum kept the regular online meetings even during the COVID-19 period, the value of face to face meetings has been more appreciated and proven to be more productive.

This meeting is by invitation only.

Presenter: DE GIORGI, Marina
