DDI Training Group side meeting

The DDI Training Group (TG) expects to have several members attending the EDDI 2023 conference in person. With this in mind we plan to discuss notable EDDI presentations, debrief on the training workshop and discuss training plans for 2024, and possible target groups (e.g. researchers). We are considering opening the meeting to non-members of the training group.

This will be a half-day meeting.
