Contribution ID: **27**   Type: **Lightning Talks (5 minutes)**

NETSEC-SIG @FIRST

Wednesday, 10 April 2024 16:10 (5 minutes)

Carlos Friaças is the Head of RCTS CERT, the CSIRT for the portuguese NREN.

NETSEC-SIG at FIRST was created in 2022, and it is a group with the mission to foster the deployment of inter-AS network security BCPs, coordinated mitigation, and information sharing.

This lightning talk intends to describe the group's objectives and topics/areas of interest, and at the same time call on new members that may be interested in cooperating (being a FIRST member is a plus, but not a requirement to join).

As a co-chair of the group, i also intend to briefly cover the work the group has made since its inception.

The information should be useful for the full audience, and especially for those interested in the field of network security.

Presenter: FRIAÇAS, Carlos (RCTS CERT (FCCN))

Session Classification: Lightning Talks

Track Classification: Lightning Talks
