GÉANT Vision

To ensure equal network access for all scientists across Europe to the research infrastructures and the e-infrastructure resources available to them

GÉANT Network

The GÉANT network interconnects research, education and innovation communities worldwide, with secure, high-capacity networks.

We design, plan, build and operate the large-scale, high-performance GÉANT network that connects European NRENs to each other and the rest of the world for sharing, accessing and processing the high data volumes generated by research and education communities and for testing innovative technologies and concepts.

At the heart of global research and education networking
