Are you interested in using In-Band Network Telemetry (INT)?
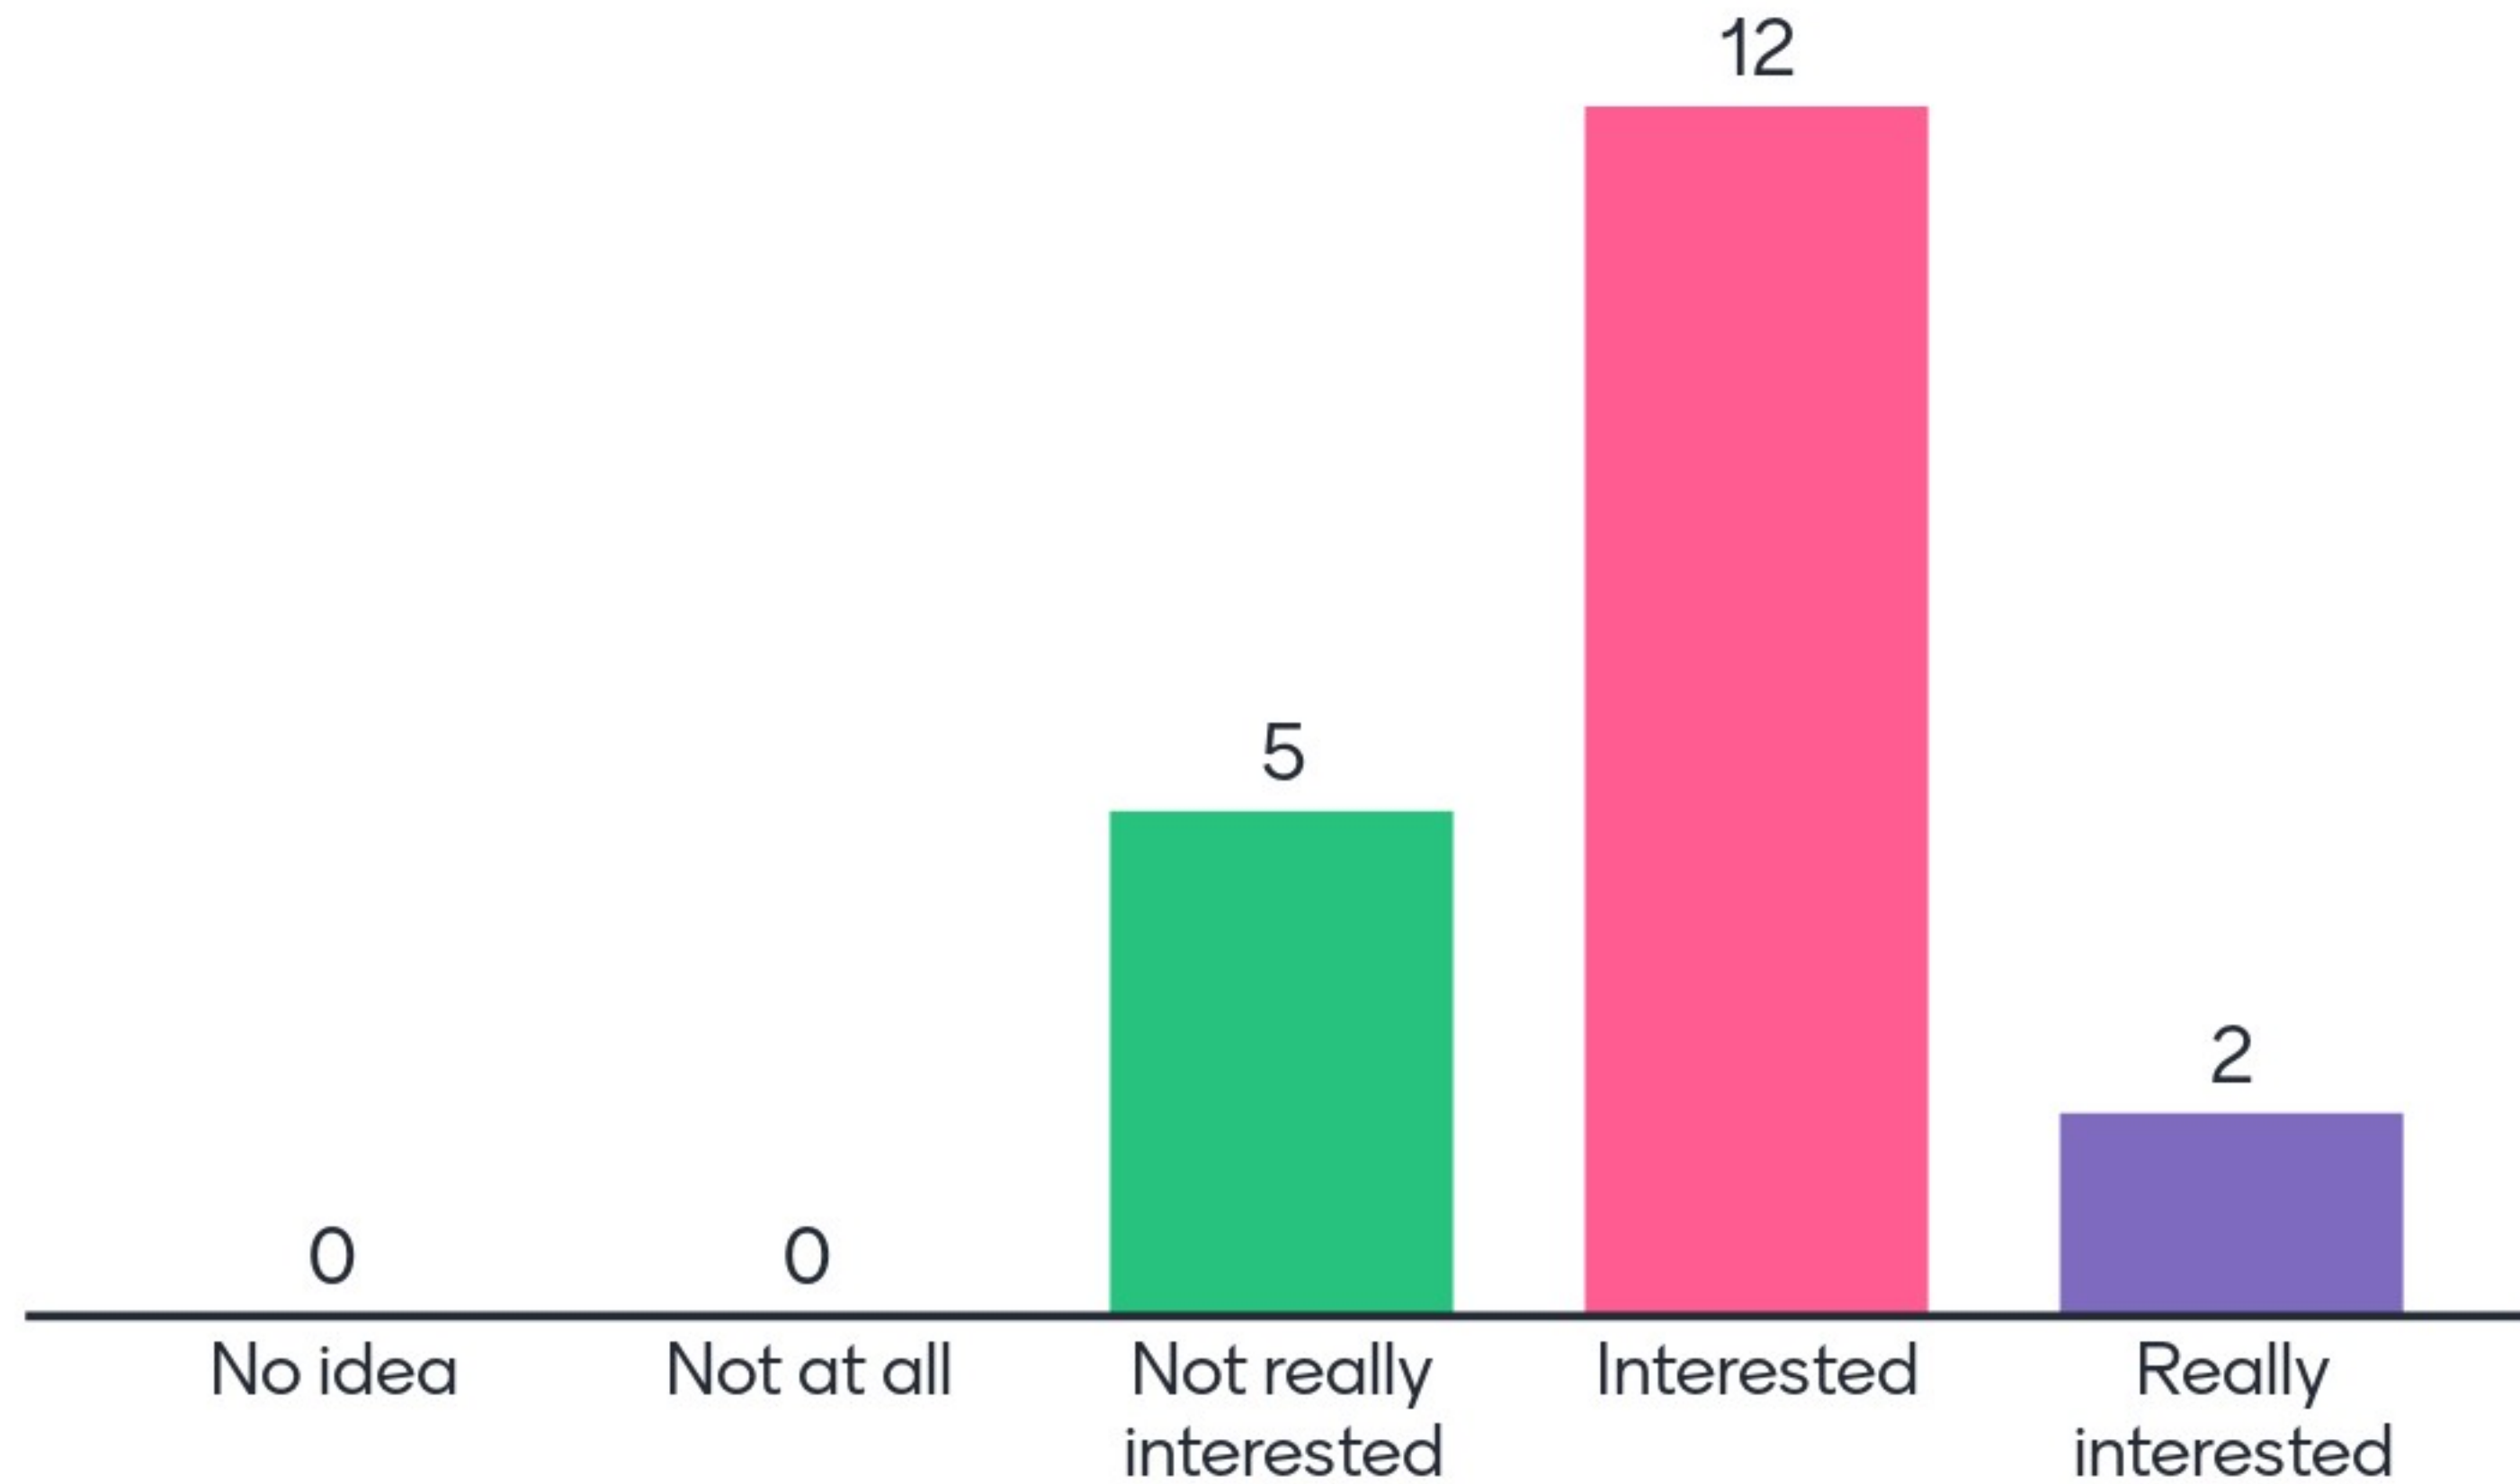

Bar chart:
- No idea: 0
- Not at all: 0
- Not really interested: 5
- Interested: 12
- Really interested: 2

Can you suggest the intended use cases?

measurements

e2e performance

link monitoring

identify congestion

latency-optimization

monitoring

diagnostics

debugging

latency

stream magnifying glass

link quality detection

e2e

congestion problems

link diagnostics

GÉANT

12

Do you have hardware that could be used with INT? Please, give the hardware name?

|		
No	Unfortunately not	No
No	no	No
wedge 100bf-32q, APS 2556X-1T	no	no

11

Do you have hardware that could be used with INT? Please, give the hardware name?

No

no

Are you interested in testing Data Plane Programmability?

Can you suggest the intended use cases?

media multiplication

per packet route analysis

buffer utilisation

Are you interested in an hands-on session ?
