  - Netflow
  - Vendor integration tools
  - Reporting, antiDDoS and visualization tools
  - Automatization/Orch. tools
  - Basic overviews of current events in the core network
Mapping to ODA functional architecture

- Different users – different challenges
- E-school LAN:
  - Passive network
  - Active network
  - LAN services

* Mapping was done in GN4-3-WP6-T2
Thanks & Cheers!

- More info:
  - CARNET OAV architecture analysis report will be published soon (GN4-3-WP6-T2)
